# Overview

- » Geographic preference refresher
- » A local perspective from Fayetteville, Arkansas
- » Examples from Roswell, NM and Omaha, NE
- » Resources and questions

## Buying Local

- 1) **What:** Which types of products?
- 2) **Where:** From which sources?
- 3) **How:** The mechanics of sourcing local correctly.
  - » **Today:** Introduction to the geographic preference option.

# Procurement Methods

**Geographic  
Preference**

# The Geographic Preference Option

THE  
**FARM** *to* **SCHOOL**  
PROGRAM

# The Process

2008 Farm Bill passed by Congress authorized the use of geographic preference.

Food and Nutrition Service published Final Geographic Preference Rule and additional guidance.

Schools define local and decide on the amount of preference to give local items.

# Geographic Preference Option Final Rule

What the rule does:

1. Grants authority to school food authorities to define local.
2. Defines unprocessed agricultural products.
3. Clarifies that a preference is a preference, not a specification.

## Who Defines Local?

“...the school food authority making the purchase or the State agency making purchases on behalf of such school food authorities have the discretion to determine the local area to which the geographic preference option will be applied.”

# What Is “Unprocessed”?

“Unprocessed” agricultural products retain their inherent character. These are the allowed food handling and preservation techniques:

- Cooling, refrigerating, and freezing
- Peeling, slicing, dicing, cutting, chopping, shucking, and grinding
- Forming ground products into patties
- Drying and dehydrating
- Washing, packaging, vacuum packing, and bagging
- Adding preservatives to prevent oxidation
- Butchering livestock or poultry
- Pasteurizing milk

# Where Geographic Preference Applies

Cash Reimbursement

DoD Fresh    USDA Foods

A decorative border at the top of the slide featuring white line-art icons on a dark background. The icons include carrots, piggy banks, and stylized trees.

## How to Incorporate a Geographic Preference

- 1) Define local.
- 2) Determine what type of procurement method to use.
- 3) Decide how much “preference” local products will receive.
- 4) Be sure your solicitation makes perfectly clear how the preference will be applied.

# Examples from Districts Using Geographic Preference

# Fayetteville Public Schools Seed to Student Program

Ally Mrachek, MS, RD, CD

Farm to School Consultant

# Defining Local

- The definition should fit the needs of the district
  - » Can be different depending on the product
  - » Not too restrictive
- Tier one: within Arkansas state lines
  - » Importance of keeping food \$\$ within state economy
- Tier two: out of state but within 100 miles of district warehouse
  - » Fayetteville is in NW Arkansas

# Weighted Preference

## Including geographic preference is optional

As allowed under federal law, FPS will provide a price percentage preference during evaluation of quotes to “locally grown products” purchased for school food procurement as defined under this geographic preference. The price percentage is as follows:

- 1) If a product is grown and packaged or processed within state lines a 10% weighted preference will be applied
- 2) If a product is grown and packaged or processed out-of-state and within 100 miles of the FPS district warehouse a 7% weighted preference will be applied

The price percentage preference means that for the purposes of comparison, prices for product grown within Arkansas state lines will be adjusted to a price 10% lower than the price quoted for the product by the producer or 7% for product grown out-of-state but within 100 miles of the district warehouse. The price percentage preference affects the quoted price only for awarding of the quote, not the actual price paid to the producer.

# Rationale for Weighted Preference

- Reviewed other program's bid documents
  - » Washington State and Mississippi
- Realistic use of geographic preference for existing local procurement program
- Provide an advantage without inhibiting competition
- Created a Weighted Preference Evaluation Form based on desired growers/products
  - » Tried out different scenarios with realistic prices

## Informal Bidding Process Weighted Evaluation Form: *For Official Use Only*

*Bids will be awarded to responsible vendors who meet the criteria below and provide products at the lowest price, per federal regulation.*

Quote solicitations gathered by (name, and job title): \_\_\_\_\_ Date: \_\_\_\_\_

Product and specification: \_\_\_\_\_  
 \_\_\_\_\_

Does the producer agree to the FPS Seed to Student Guidelines, meet producer qualifications, and provide product that meets the specifications above (if no, producer does not qualify for the bidding process)? ☐ YES ☐ NO

\*Quotes will not be disclosed to any bidding producer until all price quotes are received.

\*This document is to be kept on file for public inspection for three years.

# Omaha Public Schools, Nebraska

THE  
**FARM** *to* **SCHOOL**  
PROGRAM

## Defining Local

“...local is defined as raised with 240 miles of the Teacher's Administration Building, 3215 Cuming St., Omaha, NE.”

# Type of Solicitation

- Invitation for Bid
- Item Description: Chicken All-Natural Drumsticks - Bulk, Frozen or Fresh. Average pieces per case 137, average weight per drum 4.64 oz. and average meat weight per drum, at least 2.56 oz. Packaged under USDA inspection and USDA inspected, using USDA approved packaging. Packaged in 40 pound cases. Approximately 269 cases. See attachment for locations and quantities.

# How Much Preference

- “Omaha Public Schools will give geographic preference to local all-natural chicken drums in determining the contract award...for the purpose of determining the award, any vendor providing local all -natural drums will receive a reduction of 1% in bid price. This is for bidding purposes only and will not affect the price paid.”

# Roswell Independent School District, New Mexico

# Defining Local

“District defines regionally grown products eligible for this geographic preference at two tiers:

1. Grown within 150 miles of the District.
2. Grown in the state of New Mexico.”

# Request for Proposal - Introduction

“The purpose and intent of this document is to secure the best quality produce at competitive prices for the Roswell Independent School District. The District will give preference to bidders that provide fresh, seasonal and regionally grown produce...The Roswell Independent School District seeks to increase children’s participation in the school meal program and consumption of fresh fruits and vegetables, thereby improving childhood nutrition, reducing hunger, and preventing obesity and obesity related diseases. We seek to do the above by enhancing the health of our school meals by decreasing the distance food travels between farmers and students to our geographic area.”

## RFP – Introduction (Cont.)

- Service and price are of equal concern. The District is, therefore, willing to consider any and all options that will make service more effective and price more economical while providing reasonable income and security of contract to the bidder...The intent and purpose of this Request for Proposals (RFP) is to establish a contract with qualified sources to supply fresh fruits and vegetables as described in **Appendix A and B.** Please note that Roswell Independent School District (RISD) reserves the right to buy Regionally Grown fresh produce direct from farmers, food hubs, and other small scale aggregators when product is available in support of the division's Farm to Cafeteria efforts."

# Evaluation Criteria – Geo. Pref.

“The bidder will provide a list of the regional farms that produce will be sourced from. The list will include farm name, farm location and a list of the products sourced from each farm. All farms must meet district requirements outlined in Appendix A. Farm of origin must be written on each invoice for each delivery. For the purposes of this quote, “farm” is defined as the location where the product is grown, not the address of the packing house or aggregation point...To apply points, all items must be available for a sixty days (60) period unless otherwise specified:

- » 20 items grown within 150 miles or 30 items grown within the state of NM = 15 pts
- » 10 items grown within 150 miles or 19 items grown within the state of NM = 10 pts
- » 5 items grown within 150 miles or 10 items grown within the state of NM = 5 pts”

# Other Evaluation Criteria

“Farm to School (FTS) connects schools (K-12) and local farms with the objectives of serving healthy meals in schools; improving student nutrition; providing agriculture, health, and nutrition education opportunities; and supporting local and regional farmers. FTS, at its core, is about establishing relationships between local foods and school children by way of including, but not limited to:

- Local Products in School Meals – breakfast, lunch, after-school snacks, and in classrooms: snacks, taste tests, educational tools.
- Food system curriculum and experiential learning opportunities such as school gardens, farm tours, farmer in the classroom sessions, culinary education, educational sessions for parents and community members, and visits to farmers markets.

Points will be awarded to bidders that offer the following farm to school activities:

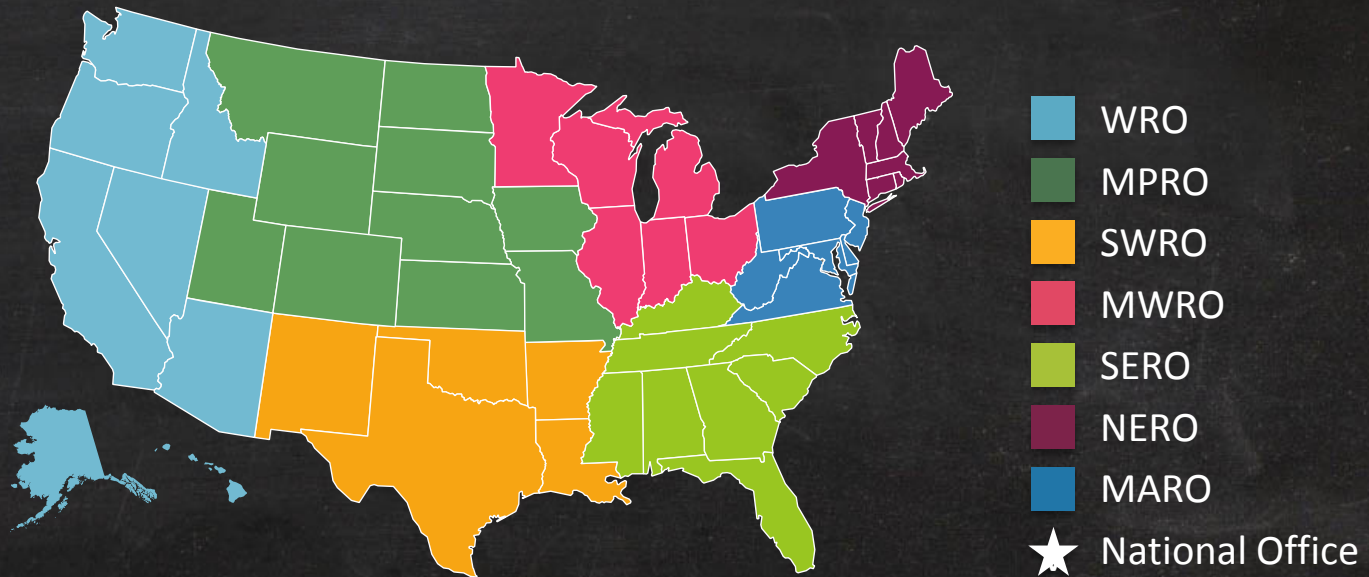

- » Farm Tours for nutrition services = 4 pts
- » Farm Tours for students = 4 pts
- » Farm in the classroom = 4 pts
- » T&TA to school gardens = 4 pts
- » Promotional material = 4 pts”
