

What is the HUSSC ID number requested on the Banking/EFT form? Where can I find this number?

The internal Team Nutrition HUSSC ID number is assigned only after we receive the completed Banking/EFT form. The form is utilized to match and verify account information within SAM.gov and our financial management system.

To clarify, once we (FNS) send the Banking/EFT form to you after your award has been announced, please return the form with updated information. Once received and verified, we will preprocess the school district account for award payment. In our communication with you alerting you that it has been preprocessed, we will notify you (with the correspondence) of the HUSSC ID number assigned to your district. Once you receive your assigned HUSSC ID number, please include your TN HUSSC ID number in the subject line of all future correspondences.

We apologize for any confusion we have caused and look forward to assisting you in any way we can (send any questions to: tn-hussc@fns.usda.gov). Thank you and have a wonderful rest of the week.
