

TEXAS DEPARTMENT OF AGRICULTURE

TODD STAPLES
COMMISSIONER

December 31, 2014

Members of the Legislature:

Organizations across our state strategically utilize federal resources through the Summer Nutrition Programs (SNP) to serve healthy meals and alleviate hunger among Texas children during the summer months. As required by Senate Bill 89 (82nd Texas Legislative Session), the enclosed report presents findings on school district participation in SNP.

The Texas Department of Agriculture (TDA) administers these programs and provides monitoring and oversight to ensure they are operated as intended. TDA provides school district resources and materials, such as best practices and training, to help ensure SNP are functioning efficiently and effectively. TDA is committed to working with statewide partners to identify private entities that can serve summer meals to children in-need while reducing the burden on school districts that are mandated to participate in SNP.

For additional information, please contact Angela Olige at Angela.Olige@TexasAgriculture.gov.

Thank you for your service to Texas.

Sincerely yours,

A handwritten signature in black ink, appearing to read "D. DeBerry", with a stylized flourish at the end.

Drew DeBerry
Deputy Commissioner

Appendix D: 2014 Operating Costs in Relation to Federal Reimbursement.....	57

Executive Summary

In 2013 and 2014, Texas law mandated that public school districts with 50 percent or more of their students eligible to receive free or reduced-price meals in the National School Lunch Program (NSLP) participate in the Summer Nutrition Programs (SNP) or request a waiver from participation, per Senate Bill 89 (82nd Texas Legislative session). In 2013, 728 school districts were identified as mandated, of which 72 percent offered SNP or arranged for the provision of SNP through a partnership with another organization. In 2014, 720 school districts were identified as mandated, of which 72 percent offered SNP or arranged for the provision of SNP through a partnership with another organization.

Challenges remain for districts as the number of districts seeking waivers from their obligation to participate in SNP has risen, from 93 in 1997 to 203 in 2014. According to waiver requests, a transportation barrier is the single largest obstacle keeping school districts from participating, representing 34 percent of the waivers in 1997 and 33 percent in 2014.

Although schools continue to be the focus to ensure an adequate number of summer feeding sites in Texas, sponsors from the private non-profit sector and governmental entities are equally important.

Background

In 1993, Senate Bill 714, enacted by the 73rd Texas Legislature established a requirement that school districts with 60 percent or more of their children eligible for free or reduced-price meals in the NSLP participate in SFSP by the summer of 1997. School districts can be granted waivers from participation annually if certain conditions stipulated in the legislation are applicable.

In 2011, Senate Bill 89 (SB 89), enacted by the 82nd Texas Legislature, established the requirement that public school districts with 50 percent or more of their students eligible to receive free or reduced-price meals in NSLP participate in SNP or request a waiver from participation. Further regulations are codified in the Texas Administrative Code, Title 4, Part 1, Rule §25.612.

Participation

In 2013, a total of 728 school districts were subject to the requirements of SB 89. Of those 527 school districts, 489 participated in either the Summer Food Service Program (SFSP) or Seamless Summer Option (SSO). TDA approved 201 participation waivers.

In 2014, a total of 720 school districts were subject to the requirements of SB 89. Of those 517 school districts, 483 participated in either SFSP or SSO. TDA approved 203 participation waivers.

Mandatory school districts are required to work with the state agency (TDA) to remove barriers to participation, locate alternate sponsors and process waiver requests. In both fiscal years 2013 and 2014, all mandatory school districts participated in SNP or received a waiver to program participation, as the following tables show.

Waivers

School districts may be granted waivers for the following reasons:

- Enrollment includes fewer than 100 children;
- The cost of transportation is an insurmountable financial obstacle;
- School buildings or cafeterias are under renovation or construction;
- An alternate provider already sponsors SNP the area, or the state agency accepted that there were other extenuating circumstances; or
- School Food Authority is unable to operate SNP because the projected operational expenses for the summer feeding program exceed the expected federal reimbursements plus one month of the school food services' three months operating expenses on hand

Attached are four appendices for fiscal years 2013 and 2014:

- Participants – lists of school districts mandated to participate in SNP that either did participate or were granted a waiver for 2013 (Appendix A) and 2014 (Appendix C)
- Costs – list of those school districts mandated to participate in SNP and identified the total amount of any profit made or loss incurred through SNP in 2013 (Appendix B) and 2014 (Appendix D)

In 2013, the following participating waivers were requested and granted:

Reason for Waiver	Number Granted
Fewer than 100 students eligible	35
Transportation	77
Construction or renovation	9
Extenuating circumstance	5
Operating expenses (cost)	15
Multiple reasons	60
Total	201

In 2014, the following participating waivers were requested and granted:

Reason for Waiver	Number Granted
Fewer than 100 students eligible	46
Transportation	68
Construction or renovation	6
Extenuating circumstance	11
Operating expenses (cost)	18
Multiple reasons	54
Total	203

Costs

Of importance, the federal program funds do not cover all costs of operating a summer feeding program. TDA asked school districts participating in summer nutrition programs in which 50 percent or more of their student enrollment met the free and reduced eligibility criteria to report their total SNP operating cost and identify any additional funds (other than federal funds) that were used to pay for the SNP operations. TDA deducted the amount of the federal reimbursements made from the self-reported information received to calculate profit/loss as noted in Appendices B (2013 Costs) and D (2014 Costs). Also reported are any non-federal funds used to operate the programs. TDA did not incur costs above federal funds to comply with Texas SB 89.
