Quick References Now Available for CEs!

TDA has been busy making it easier for CEs to learn about programs offered by TDA. The new Quick References provide CEs an overview of the program, including how they can participate! Quick References are available for all Child Nutrition Programs.

You can find the NSLP Quick Reference by visiting the Get Started page on [SquareMeals.org](https://squaremeals.org)!

Updated Tracker Tool for Professional Standards

A new feature is now available on the Professional Standards Training Tracker Tool (PSTTT). Team Nutrition appreciates receiving user feedback on the PSTTT and works continuously to enhance the user experience. Users can select a training title from a list of training titles available on the PSTTT and information related to the training, such as the length of the training, training provider, key area(s), training topic(s), and learning objective(s) will auto-populate. If users do not find the training they completed on the PSTTT training list, they may manually add the new training title and information to the list. With the latest update, users will now be able to easily upload multiple new training titles at one time to be included in the PSTTT instead of adding one at a time.

Track your professional standards required training hours today using USDA's free Professional Standards Training Tracker Tool!

Exhibit A Grains Tool Webinar Captioned in Spanish!

USDA's Team Nutrition initiative is pleased to announce the release of the "How to Maximize the Exhibit A Grains Tool" English webinar with captions in Spanish. This webinar demonstrates enhancements to the Exhibit A Grains Tool, which is a feature included with the Food Buying Guide for Child Nutrition Programs (FBG) Interactive Web-Based Tool and FBG Mobile App. The Exhibit A Grains Tool allows a user to search for a grain product (as listed on Exhibit A) and enter in the serving size from the product label. The tool then helps the user determine:

1. ounce equivalent (oz eq) grains or grains/bread serving(s) for the grain product,
2. amount to serve to provide a desired grains contribution, and
3. amount to serve for a grain product in the order to meet the minimum grains requirement by age/grade groups for specific Child Nutrition Programs.

The webinar can be viewed and downloaded at <https://www.fns.usda.gov/tn/food-buying-guide-training-resources>.
