

MENU Module At a Glance

MENU Module is a web-based menu planning software offered at no cost to school foodservice authorities in Texas. Build menus, plan meal production, and monitor nutrition compliance, all with the click of a few buttons.

SAVE TIME

Build menu cycles using preloaded ingredients and recipes. Track meal pattern compliance as menu changes are made

SAVE MONEY

Use forecasting tools to improve projected counts and reduce leftovers. Calculate cost per serving to stay within budget

STREAMLINE AR PROCESS

Automate documents needed for your administrative review including production forms, recipe reports, nutrient analyses, and professional standards documentation

"I like MENU Module better than any menu planning software that I have used. Once you get the hang of it, it's easy and so much information is right there at your fingertips. It's more than just menu planning."

*- Tina Owen
Frankston ISD*

MENU Module

More Than Just Menu Planning!

System Features

MENU PLANNING AND PRODUCTION

Use preloaded ingredients, recipes, and menus, or build them from scratch. Input plan and record production to improve forecasting and track leftovers

PARENT AND STUDENT MOBILE APP

Plan menus in MENU Module and push them out to School Café, a web-based mobile app where parents and students can rate menu items, view allergen and nutrition information, and much more!

PROFESSIONAL STANDARDS TRACKING

Save time and effort with *Team Work* – A free, web-based professional standards tracking tool available through MENU Module. Users can generate the following reports:

- Employee Lists
- Training Records and Certificates
- Expiring Certifications
- Training Events
- Progress Reports

For more information, please contact your ESC representative, visit online at www.squaremeals.org, or email TDA.MENU@TexasAgriculture.gov
