Introduction & Overview

What Data Tells Us

- *Food insecurity data* gives an insight of how many people in a community have limited or uncertain access to adequate food.
- *School meal data* provides insights on when and how many children are participating in meals during the school year.
- *Summer meal data* provides insights on when, where, and how many children are participating in meals during the summer months.

How we can use data

- Optimize program offerings to stretch limited resources
- Identify patterns, gaps, and trends
- Support well-informed decision-making
- Enable efficient advocacy
- Encourage collaboration
- Improve food security for children across the state!

Data Availability

- Feeding America
- Census
- Texas Department of Agriculture

TDA Food & Nutrition Open Data

Food and Nutrition program data is now self-service 24/7

Texas Department of Agriculture (TDA) has joined multiple state and local governments in adding their most commonly requested data to the Texas Open Data Portal for public access at Data.Texas.Gov. These datasets are accessible to the public from the Agriculture tile on the Data.Texas.Gov home page and are exportable to Excel-compatible files.

Feeding America's mission is to advance change in America by ensuring fair access to nutritious food for all as part of a nationwide network of more than 200 food banks, 22 statewide food bank associations and 60,000 agency partners, food pantries and meal programs, as well as policymakers, supporters and the communities we serve. Since 2011, Feeding America has produced the *Map the Meal Gap* study, providing estimates of local food insecurity and food costs on an annual basis to better understand people and places facing hunger and to inform decisions and actions that will help us achieve our mission. We do this by generating national and local data about food insecurity, translating those data into insights and tools like the interactive map below, and engaging partners to help them use and improve our data and research in the future.

To learn more, you can read our [report](#), review our [methodology](#) and even download our [data](#).

Website Functionality

- Data Dashboards

- Dashboard User Instructions

How to Navigate the Texas Counties Dashboard:

1. First, choose a viewing option (Map or Table)
2. Then, select a Data Category (Food Insecurity or School Meals)
3. Next, choose the Data and Year
4. Lastly, select any number of Texas counties by typing in the search bar, scrolling down the list, clicking on the map, or selecting from the bar graph on the right

Glossary & Acronym Guide

Food Insecurity	A household-level economic and social condition of limited or uncertain access to adequate food. It is when people do not have enough food to eat and do not know where their next meal will come from.
Overall Food Insecurity Rate	Percentage of the entire population that experience food insecurity, lacking consistent access to enough food for an active, healthy life. Indicates the general prevalence of food access issues in an area.
# of Food Insecure Children	Estimated number of children under 18 who live in households experiencing food insecurity, lacking consistent access to enough food for an active, healthy life.
# of Food Insecure Persons	Estimated number of individuals of all ages experiencing food insecurity, lacking consistent access to enough food for an active, healthy life.
Child Food Insecurity Rate	Percentage of children under 18 years old living in households experiencing food insecurity, lacking consistent access to enough food for an active, healthy life. Indicates the prevalence of food insecurity specifically affecting children in a given area.
ADP	Average Daily Participation / the number of students who participate each day in school meals on average.
FRP	Free and Reduced Price / meals served through the National School Lunch Program at no-cost, or low-cost, to children enrolled in school.
NSLP	National School Lunch Program / a federally assisted meal program that provides lunch to children in schools and residential child care institutions. NSLP serves nutritious, low-cost or free lunches to students in public and non-profit private schools.

Coming Soon: Texas Summer Meals Dashboard

This dashboard will allow you to:

Easily identify potential eligibility for rural non-congregate summer meal service.

Check to see how many children are participating in summer lunch each day compared to how many participate in FRP NSLP each day during the school year.

See the trends in summer sponsors, sites, and meals over the past several years.

Identify gaps in service and areas for opportunities to provide meals to more children across the state of Texas in the summer.

Data Workshop

Data Workshop

- Pick your county
 - What is the child food insecurity rate in your county?
 - How many students are enrolled in your county?
 - What percent are FRP meal eligible?
 - What percent are FRP eligible but not eating breakfast?
 - In your county, how many schools are CEP eligible?

Data Workshop

- Pick a neighboring county
 - What is the child food insecurity rate in the county?
 - How many students are enrolled in the county?
 - What percent are FRP meal eligible?
 - What percent are FRP eligible but not eating breakfast?
 - In the county, how many schools are CEP eligible?
 - How does this compare to your county?

Data Workshop

- Pick your ISD
 - How many students are enrolled in your ISD?
 - Is your ISD CEP eligible? Is it participating?
 - What percent are FRP eligible but not eating breakfast?
 - How many children does this represent (FRP Breakfast Eligible but Not Participating)
 - Are there stand out schools in your ISD?

Data Workshop

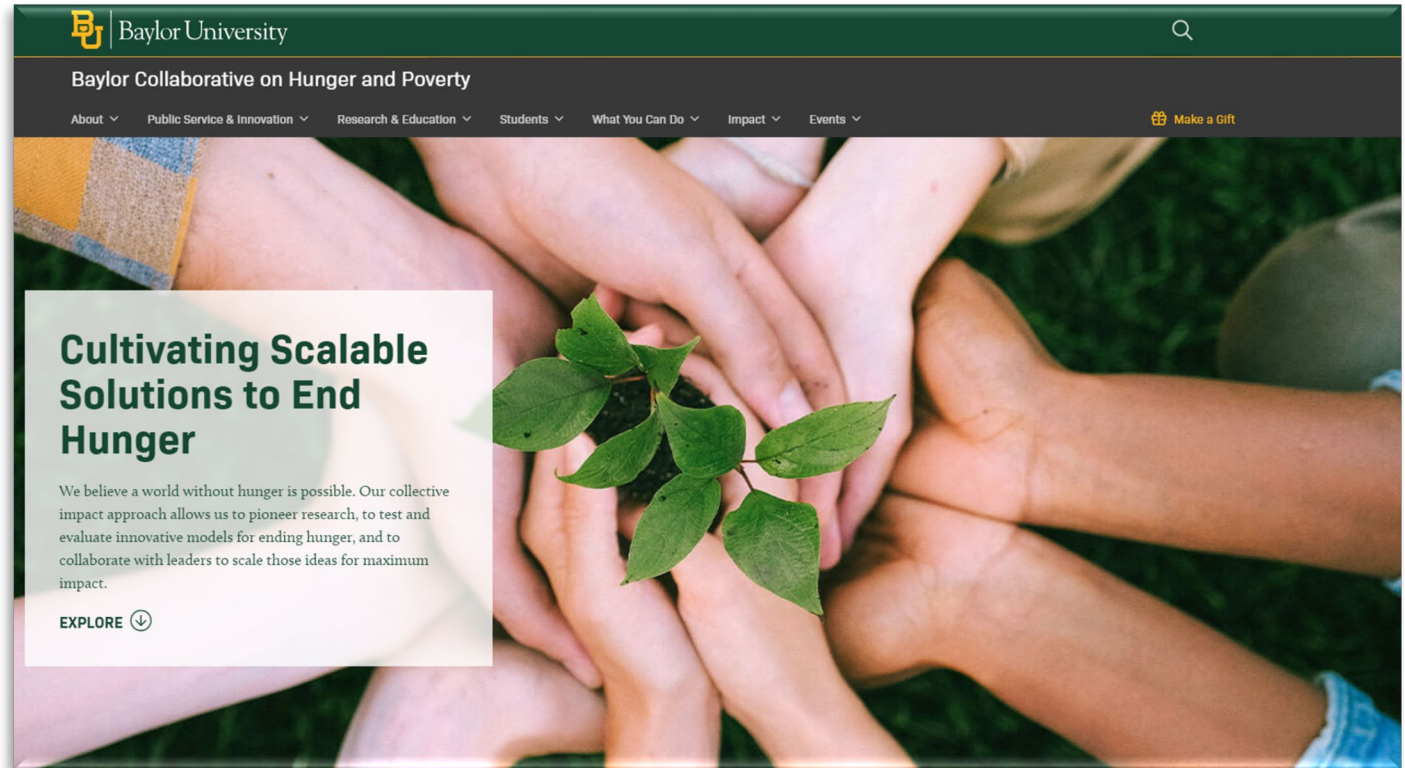

- Pick a neighboring, or similar ISD
 - How many students are enrolled in the ISD?
 - Is the ISD CEP eligible? Is it participating?
 - What percent are FRP eligible but not eating breakfast?
 - How many children does this represent (FRP Breakfast Eligible but Not Participating)
 - Are there stand out schools in the ISD?
 - How does this compare to your ISD?
