## WHAT IS MENU MODULE?

### FAQS

#### What is MENU Module?

The MENU (Menu Enhancement and Nutrition) Module is a web-based system for menu planning, meal production, nutrition compliance, and meal cost analysis.

#### Who can use MENU Module?

MENU Module is the perfect tool for district employees responsible for menu planning, meal costing, food production reporting, and more.

#### What can MENU Module do?

MENU Module can analyze menus for compliance with federal meal requirements, consolidate menu planning and production, streamline administrative reviews (AR), and make marketing to students and parents more successful.

#### What is PrimeroEdge?

PrimeroEdge is the software vendor for MENU Module. TDA offers Contracting Entities (CE) in Texas PrimeroEdge's school nutrition software (MENU Module) at no cost. Texas makes MENU Module available to CEs via TX-UNPS.

**Best Practice:** Dedicate at least one person (in addition to you) to help manage MENU Module. You will need the most help when setting up menu cycles for the first time in the MENU Module.

## ACCESSING MENU MODULE

### 1. Log in to MENU Module through TX-UNPS.

Go to <https://txunps1.texasagriculture.gov/txunps/Splash.aspx>. Enter your "User ID" and "Password" and click on the "Log On" button.

## QUICK GUIDE: GETTING STARTED IN MENU MODULE

- 1. Amigo:** MENU Module comes with a handy help feature called “Amigo.” Amigo gives you quick access to Primero Edge’s Release Magazines, guides, cards, and manuals (including a system User’s Manual), webinars, import templates and more. Type in a help topic and Amigo tells you what to do every step of the way.
- 2. District Realm:** The “District Realm” tells you what district you come from.
- 3. Dashboard:** The dashboard serves as a communication tool for announcements and messages. Click on the “Dashboard” from anywhere in the system and it will bring you back to your homepage.
- 4. Messages:** “Messages” takes you to your message board used for communicating with MENU Module users in your district.
- 5. My Profile:** “My Profile” contains your user name, contact information, password options and your “theme” selection that you can use to change the MENU Module color scheme.
- 6. Primary tabs:** The primary tabs make up the core functional tabs of MENU Module. You will use these tabs in almost everything that you do in MENU Module.

## WELCOME TO AMIGO

1. Click on the green “Amigo” button.  
*Amigo displays the “What can I help you with?” pop up box.*

2. To search for a help topic, type a help topic into the search bar and click on the magnifying lens button.

3. To access a resource, click on a resource link (in green font).

### QUICK GUIDE: AMIGO

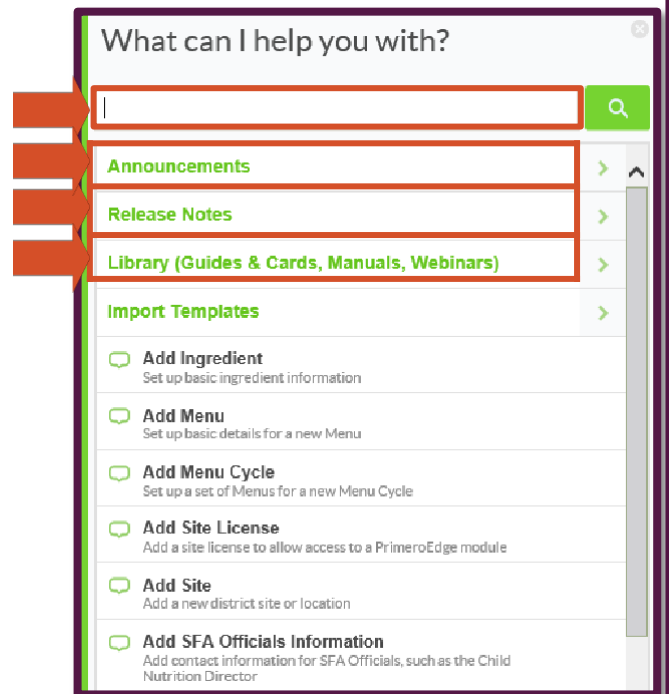

The **search bar** allows you to type in simple help topics such as “add menu.”

“**Announcements**” link you to news from the software vendor, **Primero Edge**, highlighting newer information.

“**Release Notes**” link you to a collection of seasonal **Primero Edge** magazines. Release magazines highlight software changes.

“**Library (Guides & Cards, Manuals, Webinars)**” links you to many helpful resources including the “Menu Planning User Manual.”

“**Import Templates**” allow you to import ingredients and all ingredient information.

**Tip:** Keep electronic reference materials open next to MENU Module as you work in the software. This will allow you to reference useful guides when you need help in the software.

## EXERCISE: AMIGO

Explore what happens when you type “add menu” into the search bar.

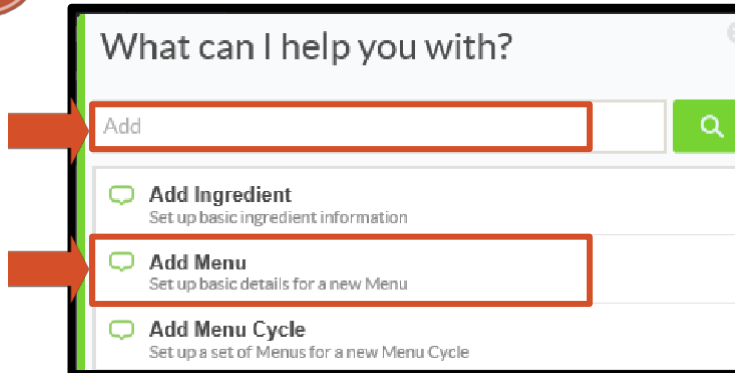

1. Type the word “add” into the search bar.

*Amigo displays a list of topics and provides step-by-step instructions on the topic that you select when you click on the topic.*

2. Click on the “Add Menu” topic.

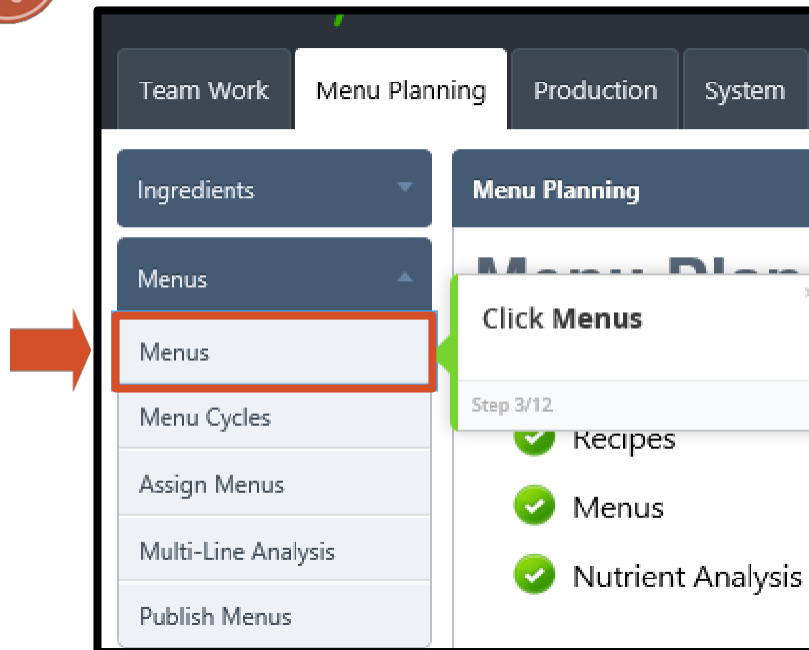

*Amigo opens a pop up box that tells you what to do and lists the current step number and the total number of steps.*

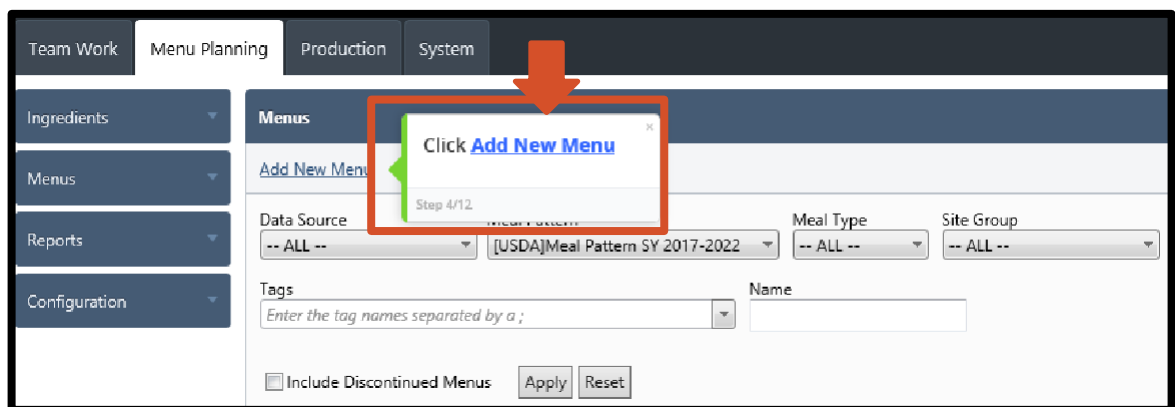

Explore what happens when you follow Amigo's instructions.

### 3. Click where indicated, "Menu."

Amigo automatically tells you the next step. Amigo will continue to walk you through with instructions for all of the steps.

**Tip:** Amigo is very helpful but cannot help users with all decisions. Different sites and districts may operate differently. Users should use critical thinking skills to help make important decisions in MENU Module.

## PRIMARY TABS

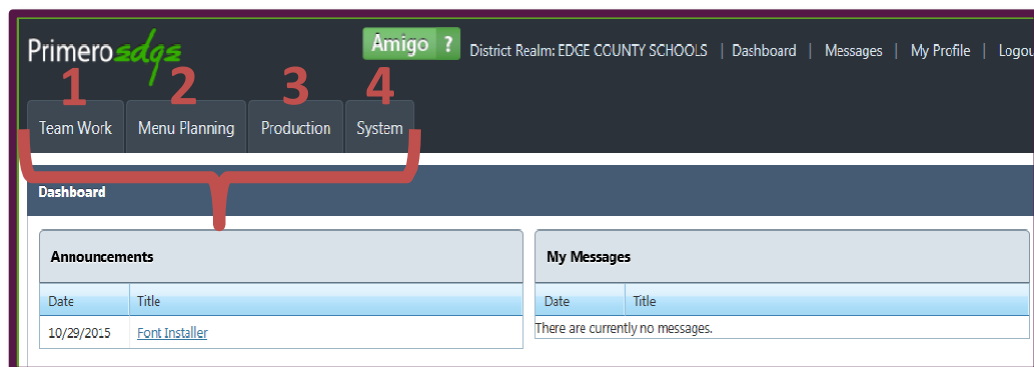

### FAQ

#### What are the primary tabs?

The primary tabs provide access to core functional parts of the MENU Module system. Each tab works to give users access to more specific information. The primary tabs provide access to more specific folders and subfolders. The further users dig, the more specific the information becomes.

### QUICK GUIDE: PRIMARY TABS

- 1. Teamwork:** The “Teamwork” tab can help you manage employee training and professional standard compliance. This tab is optional and does not affect the core “Menu Planning” and “Production” functions of the system.
- 2. Menu Planning:** You will spend the majority of your time in the “Menu Planning” tab. The tab contains everything from ingredients, to menu cycles, reports, and menu-related software setting options.
- 3. Production:** The “Production” tab allows you to plan and record production. You can generate technician worksheets, production records, recipes, enter daily production information, and forecast for upcoming daily menus.
- 4. System:** The “System” tab allows you to manage software settings such as defining the grade levels at each site, assigning users for MENU Module and selecting user roles and permissions. The “System” tab allows you to do much more, including using import and export functions, and performing management activities.

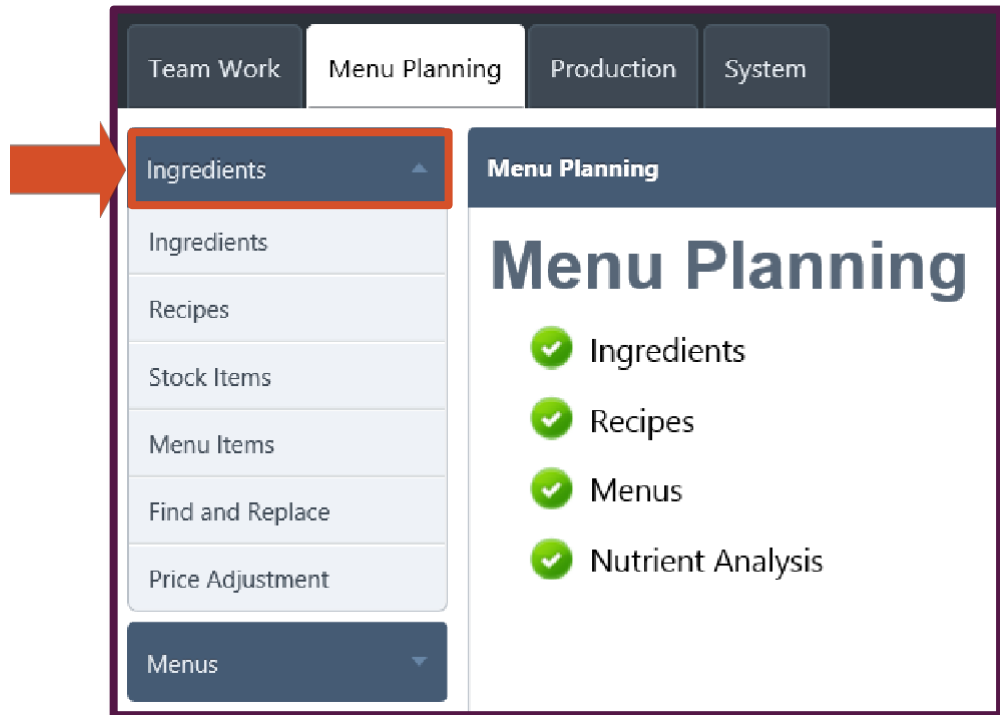

## “INGREDIENTS” FOLDER

Explore each folder and the specific information listed under each folder. Start with “Ingredients.”

From the “Menu Planning” tab.

1. Click on the “Ingredients” folder.

Within the “Ingredients” folder, you see the “Ingredients,” “Recipes,” “Stock Items,” “Menu Items,” “Find and Replace,” and “Price Adjustment” subfolders.

### FAQS

#### Why are these items listed under the Ingredients folder?

In MENU Module, ingredients build recipes, recipes become menu items, menu items are grouped together to become menus and menus are grouped together to become menu cycles. These items work together and each item builds upon the next item.

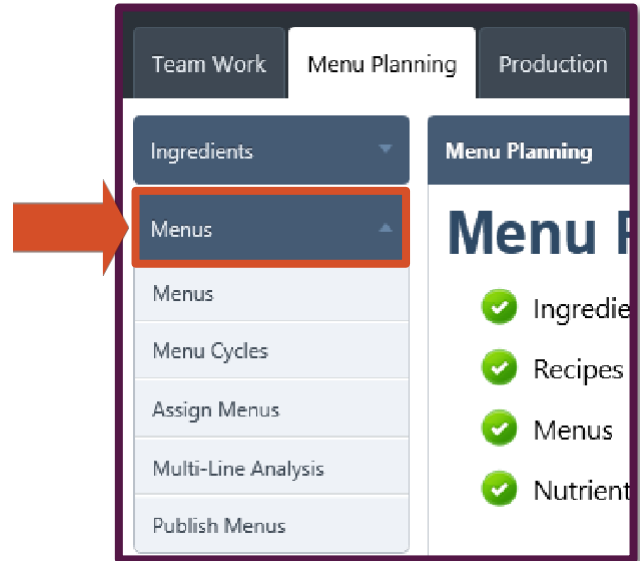

## “MENU” FOLDER

Explore the “Menus” folder.

From the “Menu Planning” tab.

1. Click on the “Menus” folder

Within the Menus folder, you see the “Menus,” “Menu Cycles,” “Assign Menus,” “Multi-line Analysis,” and “Publish Menus” subfolders.

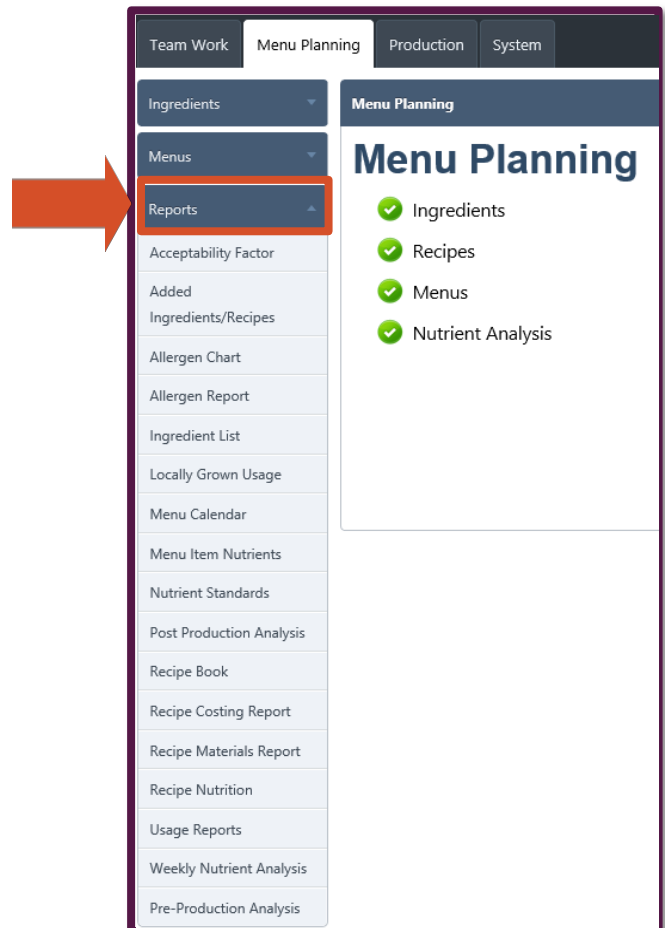

## REPORTS FOLDER

Open the “Reports” folder next.

From the “Menu Planning” tab.

1. Click on the “Reports” folder

*MENU Module can provide many reports, but until you begin using MENU Module and building your menus, your reports may not provide complete information.*

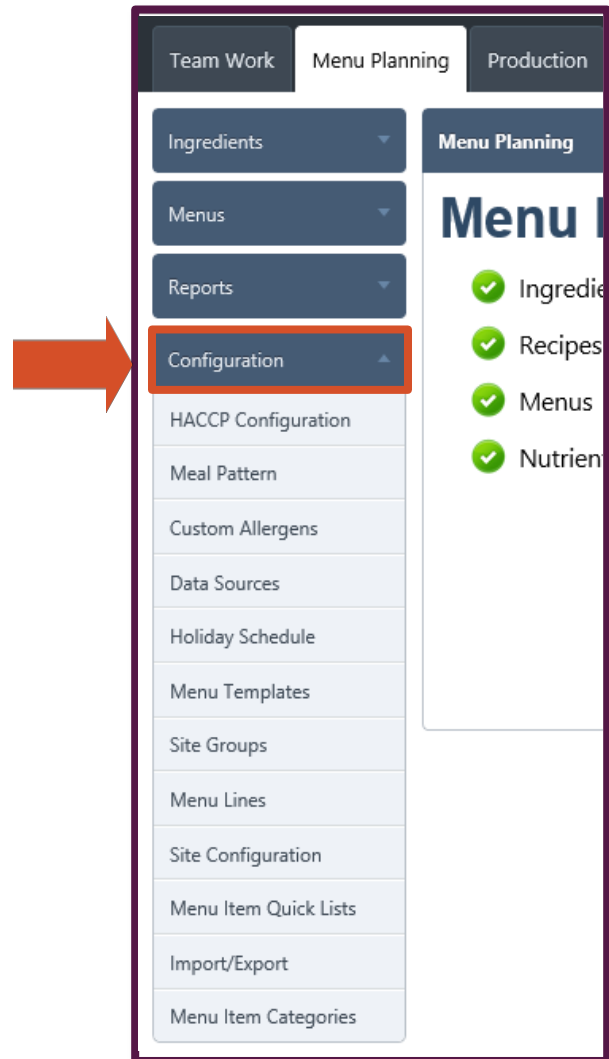

## CONFIGURATION FOLDER

Explore the Configuration folder.

From the “Menu Planning” tab.

1. Click on the “Configuration” folder.

To get the results you want, you need to program the MENU Module system before you begin using it. The folders listed under “Configuration” help you set-up your system for site-level production and produce the reports that you need.

**Resource:** Explore the *Configuration Helper Tool* (found in “Module 2: Configuration” training materials on the MENU Module webpage of [SquareMeals.org](http://SquareMeals.org)) to help you decide what settings you need to configure.
