Just because a site is NOT listed does not mean it is ineligible.
Distribution Method

Select the method of non-congregate feeding.*
Note: Only one non-congregate method is allowed per site. For example, if operating a home delivery method and a grab-and-go site, these must be two separate sites with two separate site applications.

For Mobile Route sites, meals are picked up by children/parents directly from the vehicle.

- Grab-and-Go at central site
- Mobile Route
- Home Delivery
Will this site be distributing food components in bulk?

Bulk food component distribution is a strategy for packaging multiple components (for example, a gallon of milk, a loaf of bread) that can easily be assembled into a multiple meals and require no more than warming to be eaten.

Note that pre-plated, unitized meals are not considered bulk packaged food.

Note also that if distributing items in bulk, the site may only distribute up to 5 days of meals at one time and must submit sample menus and procedures for ensuring food safety later in this form.

☐ Yes
☐ No

Bulk Components Attestation: I attest that by opting to distribute food components in bulk, this site cannot deliver more than 5 days of meals at one time. *

Will this site distribute more than one day of meals at a single distribution? *

☐ Yes
☐ No

Will this site be providing more than 5 days of meals at a single distribution? *

Regulations allow for a maximum distribution of 10 days of meals at a time. Any distribution of over 5 days of meals at a time requires an upload of a sample menu and procedures for ensuring food safety.

☐ Yes
☐ No

This response will lead to a denial of the request. Because bulk food component distribution was selected, the max number of days of meals allowed at a single distribution is 5.
Bulk Food Component Distribution and Multi-Day Issuance

Select how you will provide distribution procedures. *
You must upload or enter procedures for how you plan to safely distribute bulk food components and/or more than 5 days of meals at a time.

Procedures should include:
- a sample menu,
- how the CE will adequately address food safety concerns with families; and
- instructions to families of how to assemble bulk food components into reimbursable meals, if applicable.

Refer to the Summer Non-Congregate page on SquareMeals.org for more information on these flexibilities.

A file upload is preferred.

Hybrid Congregate/Non-Congregate Sites

Will this site be offering both congregate and non-congregate meals? *

Sites may serve both congregate and non-congregate meals if those services (including days of intended meal consumption) do not overlap. All children must receive the same number and types of meals at each distribution.

Example:
- An allowable hybrid service would include congregate service provided Monday through Friday, with Saturday and Sunday meals being sent home with the children.
- An unallowable service would include distributing a bundle of 5 days of meals on Monday, while a subset of children receive daily congregate meals at the site.

Additionally, sites will be required to keep separate counts of congregate and non-congregate meals distributed and may be required to report those meal counts monthly to TDA.

☐ Yes
☐ No

☑ Hybrid Attestation: I attest that by serving both congregate and non-congregate meals at this site, I must track the number of congregate and non-congregate meals distributed and may be required to report these numbers to TDA on a monthly basis. *
Options for Summer School

Allowable:

• Daily congregate meals for both summer school students and community children M-F with non-congregate meals sent home on weekends.
  • All children must eat onsite.
  • This is considered a hybrid site.
• Daily non-congregate meals for both summer school students and community children M-F with non-congregate meals sent home on weekends.
  • Summer School students pick up the non-congregate packaged meals and return to classroom or other setting. While the students are eating together, these are considered non-congregate meals.
  • This is not considered a hybrid site.
• 5-day bundle distributed on Monday. Summer school students must also receive bundle and bring lunch from the bundle daily to school.
Options for Summer School

**Not allowable:**

Summer school kids fed congregate meals daily while other children receive multi-day bundle for the week.

All children receive the same number and type of meals at distribution.
Please select the days of distribution, type of distribution, number of days’ worth of meals distributed at each service, and type of meals distributed at each service.

Note that meals must be distributed during the times listed on your site application, and meals may only be claimed for the days listed in the site application.
