WBSCM TRANSITION TO LOGIN.GOV
Users with existing eAuth accounts will be required to use Login.gov to access WBSCM in coming months. Login.gov will provide added security benefits to protect your personal information.
TRANSITION TIMELINE

- Phase 1: September 12, 2023. Optional for existing eAuth account holders.

- Phase 2: March 26, 2024. Users will be encouraged to link sign up at Login.gov but users can skip and continue to use eAuth for login.

- Phase 3: October 1, 2024. Users will be required to use Login.gov to access WBSCM.
CREATE A NEW LOGIN.GOV ACCOUNT

Users can create a Login.gov account and link it to the existing eAuth account in few simple steps:
Our improved login experience is here!

Authentication method setup

Add another layer of security by selecting a multi-factor authentication method. We recommend you select at least two different options in case you lose one of your methods.

- **Authentication application**
  Download or use an authentication app of your choice to generate secure codes.

- **Text or voice message**
  Receive a secure code by (SMS) text or phone call.

- **Backup codes**
  A list of 10 codes you can print or save to your device. When you use the last code, we will generate a new list. Keep in mind backup codes are easy to lose.

- **Security key**
  A physical device, often shaped like a USB drive, that you plug in to your device.

- **Government employee ID**
  PIV/CAC cards for government and military employees. Desktop only.

Add an authentication app

Set up an authentication app to sign in using temporary security codes. What is an authentication app?

1. **Give it a nickname**
   If you add more than one app, you'll know which one is which.
   login.gov

2. **Open your authentication app**

3. **Scan this QR barcode with your app**

Or enter this code manually into your authentication app

KT4T76RM7P6JRLRFT666FUPHP96A

4. **Enter the temporary code from your app**

Example: 123456

618848

[Copy]

[Remember this browser]

Submit
An authentication app was added to your account.

You’ve added your first authentication method! Add a second method as a backup.

Adding another authentication method prevents you from getting locked out of your account if you lose one of your methods.

Add another method
