Dear Program Partner:

Thank you for your commitment to administering federal nutrition programs. The complexities of managing these programs and the process of participating in administrative and procurement reviews require dedication and perseverance. You and your team are demonstrating exemplary leadership in service to your community.

The Texas Department of Agriculture (TDA) is required to conduct administrative and procurement reviews to ensure that program operators comply with federal regulations. TDA is always looking for methods to improve the review processes and would appreciate your insight. Please help us improve the review experience by completing the customer service survey that is emailed during the entrance and exit conferences. This is an opportunity to communicate directly with TDA.

The review process often reveals new avenues for achieving excellence in all aspects of program operations. The results will help serve the Texans who depend on federal programs for access to good nutrition and who value the healthy lifestyles that they promote. I encourage you to use the reviews and the survey to strengthen our collaboration as we work together to build a healthier future in the Lone Star State.

Sincerely,

The Administrative Review (AR) assesses the operation of the National School Lunch Program (NSLP), School Breakfast Program (SBP), and/or Seamless Summer Option (SSO) to ensure compliance with program regulations (7 CFR 210, 220, and 245). The AR is divided into two parts: Critical Areas of Review and General Areas of Review. The Critical Areas of the AR is divided into two parts: Performance Standard One and Performance Standard Two. In addition, the AR also contains the Resource Management (RM) review, also called the Financial Review and Procurement Review.

Figure 5: Meal Compliance Risk Assessment Tool screen (partial)

Per the USDA Guidance Manual, the Meal Compliance Risk Assessment Tool must be completed for each selected school. The Meal Compliance Risk Assessment evaluates error-prone areas and provides risk scores. The selected site with the highest Meal Compliance Risk Assessment score must undergo a more in-depth meal review (i.e., “Targeted Menu Review”).

Form Statuses:

A status column is located to the right of each SFA level form and Site level Form. They may display the following statuses:

Incomplete – the form has been started, but has not been completed.

Completed – all questions have been answered in the form without errors.

Error – required questions in the form have not been answered correctly.

Not Applicable – the form set does not apply to the CE and does not need to be completed.

Accessing Review Attachments:

TDA reviewers will request CEs to provide specific documentation during the Off-site Assessment and CE’s will attach the requested documents in this section of TX-UNPS.

1. CE must return to the SNP Reviews Review Dashboard. If you were currently working in the Off-site Assessment forms, click the “Back” button at the bottom of the screens until you reach this page.
