Farm Fresh Learning Resources

Materials for supporting Farm Fresh education in the classroom, school garden, or at home

AGRICULTURE
The science, art or practice of cultivating the soil, producing crops, and raising livestock

COOKING & NUTRITION
The act or process of nourishing or being nourished

GARDENING
The act, activity, or pastime of planning and cultivating a plot or container of herbs, fruits, flowers, or vegetables

INTRODUCTION TO THIS GUIDE

While children are learning both in and outside the classroom, the Texas Department of Agriculture (TDA) Farm Fresh Initiative wants to ensure you have the resources you need to teach about Farm Fresh topics. The materials compiled in this guide have been selected to engage children in activities that support healthy and active lifestyles and strengthen their understanding of how their food is produced. This guide is designed to be used by teachers as well as caregivers overseeing instruction at home.

BENEFITS OF FARM FRESH LEARNING

• Increased willingness to try new and healthy food at home
• Increased knowledge in the STEM concepts of science, technology, engineering, and math
• Provides children with an understanding of gardening, agriculture (growing cycles, seasonality), local foods and the environment
