Parents,

March 14 –20, 2021 is National Child and Adult Care Food Program (CACFP) Week, a national education and information campaign sponsored by the National CACFP Sponsors Association. The campaign raises awareness about USDA's CACFP to combat hunger and brings healthy foods to tables for children in child care centers, homes, and afterschool programs, as well as adults in day care.

As parents, you know the importance of encouraging children to make healthy food and drink choices; contact and volunteer at your child’s day care center during this week to support this important message and bring home some new ideas/recipes for healthy meals.

This product was funded by USDA.
This institution is an equal opportunity provider.
